WITH **My Fleet Manager** THE ADVANTAGES ARE CLEAR.

FULL CONTROL

You can monitor and update your vehicles constantly,
at any time and wherever they are.

TOTAL SAFETY

You are kept up to date on the correct, ongoing functionality
of your vehicles and you are alerted in case of theft or faults.

MAXIMUM EFFICIENCY

You can optimise routes, fuel consumption and battery management
for electric/hybrid vehicles, schedule maintenance and achieve
a significant cost reduction.

My Fleet Manager

THE INNOVATIVE TOOL THAT GIVES YOU COMPLETE CONTROL OVER YOUR VEHICLES.

My Fleet Manager is the innovative and comprehensive solution for managing your fleet. The intuitive interface and totally remote accessibility allows you absolute control over activities, service status, maintenance and assistance of each vehicle. With a click you will get all information you need in real time.

Fleet management tool for all FCA connected vehicles with embedded connectivity (Uconnect™ Services and Alfa Connect Services) and aftersales connectivity (Mopar® Connect and Alfa Connect).

Do you also have vehicles from other car makers?
Please contact our fleet partner Targa Telematics for more information.

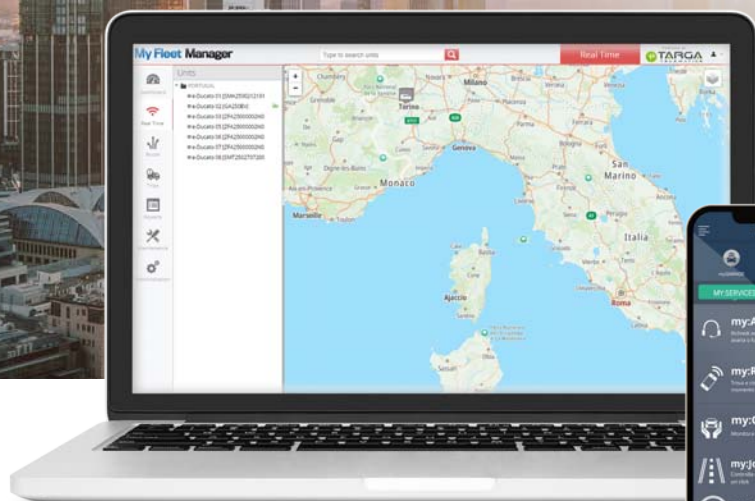

My Fleet Manager is tailored to your needs
and is available in two packs: Basic and High.
To find out more, go to myuconnectfleet.fcagroup.com

BASIC PACK

HIGH PACK

My Fleet Manager offers you a set of intuitive functionalities.

DASHBOARD

A virtual operation center where you can instantly view every vehicle of your fleet, checking all the parameters of your interest, such as fuel level or battery status for hybrid and electric vehicles.

REAL TIME

See where the vehicles in your fleet are in real time and directly on the map, plus quickly access detailed information about each vehicle.

ROUTE

Monitor your fleet by viewing the route of each vehicle based on the days and times you select.

TRIPS

Manage trips better by assigning tasks and viewing progress to define and modify the targets of your fleet.

REPORT

Detailed data information and customisable reports are available for a comprehensive overview. Know everything about your fleet and take the best and most timely decisions.

MAINTENANCE

Simplify maintenance management and reduce costs by scheduling any kind of intervention based on activity hours or mileage.
Hence, keep your fleet vehicles efficient and compliant with regulations.

ADMINISTRATION

Easy access to essential forms, simplifying your fleets administrative management and identifying risk areas using the data in your possession.
